

## Bio

Kevin created *Humbled by Homelessness* to tell the truth about homelessness—without shame, without sensationalism, and with deep respect for the people living it every day. His work is rooted in listening and showing up, and he has served on the **Salt Lake County Coalition to End Homelessness** as well as the **Consumer Advisory Board at Fourth Street Clinic**. Through writing, speaking, music, and prayer, Kevin invites communities to trade judgment for compassion and to support practical solutions that restore dignity.
